ACTIVITY 001

Balanced Feet

Body Preparation & Posture

3 minutes / Standing space or a firm chair.

Find a stable stance without locking the knees.

Feet comfortably apart

Knees easy, never locked

Weight supported, not gripping

Front and side views of a supported singing stance.

1

Place feet comfortably apart and soften the knees; seated singers rest both feet on a stable support.

2

Shift weight gently forward and back, then settle where neither heels nor toes grip.

3

Speak one short lyric line, then sing it on a comfortable note without changing the easy stance.

DIRECTOR'S CUE

Feet remain quiet and the first sung phrase feels as easy as speaking.

COMMON TRAP

Locking the knees to look upright.

MAKE IT WORK

Keep the whole activity seated; use small weight shifts instead of standing.
