ACTIVITY 114

Sound and Silence Sculpture

Creativity & Inspiration

7 minutes / A visible four-box plan.

Make a short structured piece using sound and intentional rests.

Four agreed durations make a repeatable form. Silence has a deliberate place.

1. *Label four boxes: hum, silence, spoken word, silence; agree a comfortable duration for each.*
2. *Perform the plan once with a clear cue at every boundary.*
3. *Let groups change one box and explain how the silence changes the musical effect.*

DIRECTOR'S CUE

The silences are deliberate and the form can be repeated.

COMMON TRAP

Treating silent boxes as unplanned gaps.

MAKE IT WORK

Use gestures or gentle tapping instead of pitched sound.
