ARRIVE / PREPARE / FOCUS A / RECOVER / FOCUS B / TRANSFER / CHECK

00–03 MIN / Arrive and name the target

Children's choir. Build attentive listening and a short, comfortable response. Confirm the exact score location and one success criterion.

03–07 MIN / Prepare the sound

Activity 023, Gentle Descending Five. Model 5-4-3-2-1 on 'oo' in a range already comfortable for the choir. Then apply its remaining steps with normal recovery pauses.

07–13 MIN / Focused task A

Activity 051, Name and Note Circle. Learn names while giving everyone a low-pressure first response. Invite willing singers to offer a spoken name; the group echoes each without judging pitch.

13–16 MIN / Recover and listen

Pause singing. Allow normal breathing and water as needed. Read the upcoming text or listen to the director's short model; identify one useful cue.

16–22 MIN / Focused task B

Activity 073, Listen Before You Echo. Delay the response until the whole model has been heard. Model a short phrase while the hand stays raised; release the echo cue after one silent beat.

22–27 MIN / Transfer into repertoire

Use a familiar song with two short lines; keep individual participation optional. Work in short attempts with listening and recovery between them.

27–30 MIN / Check and close

The group waits for the echo cue and enters together. Write the next page, bar, and one practical task for the following rehearsal.
